

Caring for our community

Cornwall Hospice Care provides specialist medical care to people with life limiting conditions and gives practical, emotional and spiritual support to patients, their families and carers.

The professional team offer a truly holistic approach to care to help improve the quality of life of patients, who are supported in an atmosphere of genuine warmth, which is positive, but not falsely optimistic.

There are 24 beds across the two hospices (Mount Edgcombe, St. Austell and St. Julia's, Hayle) as well as day treatments and therapies. Specialist medical input is also provided in other healthcare settings in the county.

About half of the patients that come to the hospices for the management of pain and symptoms are able to go home after their stay.

Specialist equipment plus staff costs add up to more than £5 million annually - that equates to £11 a minute. Around 80 per cent of the charity's income is from public support through donations, fundraising, gifts in wills, the weekly lottery and the retail network.
