#### **BACKGROUND INFORMATION:**

Cornwall Hospice Care provides specialist clinical care and support to adults living with a life-limiting illness in Cornwall. Every year thousands of people are touched by the work of the charity as their loved ones are given specialist palliative care to help them cope with their illness.

The services are provided free of charge, but cost nearly £6 million a year – equivalent to £11 a minute. With limited funding from the government the organisation relies on the generosity of the general public for more than 80% of its running costs.
