

PRESS RELEASE

Sumo Standoff Last chance to enter Cornish Charity's Knockout Fundraiser!

27/6/2011

LAST FEW SPACES REMAINING IN CHARITY TEAM BUILDING CHALLENGE.

'Calling all sports teams, offices and community groups....Cornwall Hospice Care needs you!' That's the message from the Cornish charity, which has just three places left for teams to enter the 'It's a Knockout' challenge next month (July 24) , which will take place at 'The Grand Day Out' family fun day at the Royal Cornwall Showground.

" We've had a fantastic response from local companies and organisations entering the 'It's a Knockout Challenge. There are teams in the competition from all over the county, including the Nifty Nurses, the Miss Fits, the SS8 and the Barclays Eagles" said Rose Wiltshire, Community Fundraiser for Cornwall Hospice Care. " So, if you and your friends are game for a laugh and want to take on the obstacle course we would love to hear from you," she added.

Teams can be from 6 to 10 people and will compete against each other in a variety of wacky inflatable games to decide who will be the Ultimate Knockout Champion.

Registration is £10 per person, and each team member is asked to raise a minimum of £30 per person in sponsorship. All funds raised will help provide specialist care to the people of Cornwall living with life limiting illnesses.

The Knockout Team Challenge is just one of a host of activities and events including a large Cornish craft and produce fair, antiques market and valuation event, fun dog show, vintage boutique, car show, and licenced bar. The charity's Super Summer lottery draw will also take place at the event which promises to be a great day out for all the family.

With only a few places left, teams or individuals are asked to contact Cornwall Hospice Care on 01726 66869 or email rwiltshire@cornwallhospice.co.uk as soon as possible if they would like to take part.

Cornwall Hospice Care provides specialist clinical care to patients with life-limiting conditions at its two hospices and in other health care settings. It costs nearly £6 million annually to run its services, the majority of which comes from the public's support.
